FIDE Arbiters' Commission

att. chairman Takis Nikolopoulos

Subject: Request for suspension

We inform you that the Montenegro Chess Federation's Board has made a decision to suspend IA Vladimir Šakotić from the MNE list because of abuse of position. MCF has filed a criminal complaint against Vladimir Šakotić, and the police are conducting an ex officio investigation of the organization of the European Youth Championship which was held in Budva in 2013.

In connection with the above-stated we request that the proceedings against Vladimir Šakotić be started before the FIDE Ethics Commission, with our representative present, and we propose that he be banned from working and participating in chess events, competitions, meetings and educations.

Also, among documents in our possession is an invoice that was sent on the ECU's behalf by Sava Stoisavljević, ex Secretary General of the ECU, with instructions that the money from the MCF's account be transferred to the private account, by which she abused position of the Secretary General of the ECU. We propose that the proceedings against Sava Stoisavljević be started before the FIDE Ethics Commission, with our representative present, and we propose that she be banned from working and participating in chess events, meetings and educations. For all further clarifications you can contact us via e-mail or telephone.

Angelina Vuković, president
